

SIMPLIFY | PROSPER | THRIVE

Greetings IC360 Member Family!

Earlier this month, we invited several members down to The Diplomat Hotel in Hollywood, FL for our Founding Steering Committee. We spent a full day in a workshop setting reviewing the IC360 suite of solutions. We also had some good meals and great times!

The Steering Committee provided an invaluable opportunity to hear from our members about what's working, what can be improved, and how we can take your IC360 membership to the next level in the coming months and years.

The feedback from the session has been fantastic. We just wanted to share some of this with you. As a company, our ongoing mission is to help you Simplify, Prosper, and Thrive!

Aretha Kitson
Owner of 5 Centers

"I can't say enough about the time I spent with the IC360 Team! We had a wonderful time collaborating with other owners who are experiencing the same struggles I experience. They treated us to great food and the location was just beautiful. They wanted to know what value we are receiving from using their service and how they could make it even better! You don't usually hear that from a company.

It was clearly visible that the IC360 team is truly committed and dedicated in making my business as successful as it can be. They showed us the true value we are getting from their system and the money we are saving by implementing all of the Inspire Care 360 services."

- Aretha Kitson, Owner, Kidz Ink

Look for additional details coming soon -- we are interested in getting even more members involved in workshops like this, for the rest of 2020 and beyond!

Yours in Success,
--
The IC360 Team
